

INSTANT A&D FORTIFIED NONFAT DRY MILK

Description: Instant Nonfat Dry Milk is made by removing the water and fat from cows' milk to produce a dried product uniform in particle size that reconstitutes with ease. It can be used as a beverage, in beverage products and for cooking purposes. All the protein, B Vitamins, calcium and other minerals provided in whole milk remain. Minimum level for Vitamin A is 2,000 IU/reconstituted quart and for Vitamin D is 400 IU/reconstituted quart.

Analysis
